The Jimmy Project

WHITEPAPER

Version 1.0 , April 2023

Content **Heighlights.**

Page
07.

Problems to Solve

Jimmy project, we aim to address the following problems across various aspects of the industry

Page
09.

The Approach

Jimmy Project's approach to the problems in the cryptocurrency industry is to leverage the power of meme tokens and create a strong community incentivized by JIM Token

Page
10.

Business Model

The Jimmy Project has multiple revenue streams including NFT sales, gaming fees, DeFi charity contributions, advertising, metaverse assets, social media partnerships, and token sales, ensuring a diverse and sustainable revenue model for the long-term growth and success of the project.

Page
11.

Growth Model

The project plans to reach 200,000 audience that uses Jimmy Project related services and products by the end of 2025. The growth strategy will be implemented by focusing on user acquisition through targeted marketing, partnerships with other projects in the gaming and DeFi.

IMPORTANT NOTICE

Please Read This Entire Section And Do Not Take Any Actions Until You Finish It. This White Paper Is A Summary Of JIMMY Project Model, Technology, And Brief Introduction To JIMMY Project Principles. Please Consult Your Legal, Financial, Tax And Other Professional Advisor(S) Before Acquiring JIM Tokens.

PURPOSE

The purpose of this whitepaper is to present the JIMMY Project in connection with the JIM Token (JIM). The JIMMY Project as described in this whitepaper is under development and is being constantly updated including but not limited to technical features, token behavioral model, etc. The JIMMY Project Team reserves all the rights to add, delete or modify any of the information in this document.

REGULATORY STATUS NOT ASSURED IN ALL JURISDICTIONS

JIMMY Project intends to operate in full compliance with applicable laws and regulations and obtain the necessary licenses and approvals in key markets. This means that the development and roll-out of all the features of the JIM token and the JIMMY Project described in this whitepaper are not guaranteed. Regulatory licenses and/or approvals may be required in certain jurisdictions in which relevant activities may take place. It is not guaranteed, nor any assurance is given that any such licenses or approvals will be obtained within a particular timeframe, or at all. This implies that the JIMMY Project platform and other features of the proposed JIM token may not be available in certain markets, or at all. This could require restructuring of that ecosystem and/or its unavailability in all or certain aspects.

NO INVESTMENT ADVICE

This whitepaper does not constitute any investment advice or recommendation by JIMMY Project , its officers, directors, managers, employees, agents, advisors or consultants on the merits of purchasing JIM tokens, nor should it be relied upon concerning any other contract or purchasing decision.

NO SALE OF SECURITY

This whitepaper does not constitute a prospectus or financial service offering document and is not an offer to sell or solicitation of an offer to buy any security, investment products, regulated products or financial instruments in any jurisdiction.

Welcome.

Welcome to the Jimmy Token Whitepaper!

We are excited to introduce you to our innovative project, which aims to create a strong community by incentivizing users with JIM tokens. Jimmy Token is a meme token that has a fun and engaging game world, a social metaverse, and a DeFi platform, making it a comprehensive ecosystem that caters to the needs of its users.

Our team at Bytedex, the owner of Byte Exchange, has created the Jimmy Token project to attract both current crypto users and those who are interested in crypto for the first time. Our goal is to acquire new users with JIM tokens and increase our community members as much as possible. We believe that JIM tokens will provide a fun and interactive way for our community members to engage with each other and earn rewards.

In this whitepaper, you will find detailed information about the tokenomics of JIM, the features of our game world and metaverse, our DeFi platform, and our marketing strategy. We hope that after reading this whitepaper, you will understand the full potential of JIM tokens and the benefits they can bring to our community. Thank you for your interest in the Jimmy Token project!

Our **Mission.**

Jimmy is a community-driven project built on the Ethereum blockchain that aims to revolutionize the world of meme tokens. Our project is inspired by the success of other meme tokens, but we believe that there is still room for improvement in this space.

Our goal is to create a meme token that not only has the potential for rapid growth, but also has a strong foundation and real-world use cases. We believe that by addressing the shortcomings of other meme tokens and integrating innovative features, we can create a token that will stand the test of time.

At Jimmy, we are committed to creating a project that is not just about hype, but also about delivering value to our community. We have assembled a team of experienced developers and marketers who are passionate about crypto and have a track record of delivering successful projects.

With Jimmy, we are taking meme tokens to the next level. Our tokenomics and features are designed to create sustainable growth, and we have a roadmap that includes a variety of use cases that will help drive adoption.

Good to know:

What is it? 01.

The Jimmy Project is an innovative blockchain-based project that aims to disrupt the Web3 gaming, Metaverse, Defi, MeME TOKEN, Charity, and community-driven industries. Our mission is to create a community-driven, decentralized platform that provides a seamless experience for gamers and blockchain enthusiasts while also giving back to society.

At the heart of the Jimmy Project is a passionate team of experts who are dedicated to developing a platform that prioritizes security, transparency, and innovation.

How is it? 02.

Our white paper will provide an in-depth look into the Jimmy Project's vision, strategy, and implementation plan. We aim to provide our potential investors and community members with a comprehensive understanding of the project, its potential, and its impact on the cryptocurrency industry.

We are committed to fostering a strong community that shares our values of transparency, inclusivity, and innovation, and we welcome all gamers, creators, and enthusiasts to join us on this exciting journey.

Problem **to Solve.**

The cryptocurrency industry has made tremendous progress in recent years, but it still faces various challenges. As Jimmy project, we aim to address the following problems across various aspects of the industry.

Concept.
By addressing these challenges, Jimmy Token aims to provide a comprehensive solution that enables users to engage in the cryptocurrency industry securely, transparently, and profitably while contributing to social causes and the growth of the Web3 ecosystem.

Gaming

The gaming industry is massive and growing, but it still lacks transparency and ownership for gamers. Gamers are often not rewarded for their time, skill, and contribution to the gaming ecosystem. Additionally, the current payment systems in gaming are slow, expensive, and often exclude certain regions or demographics.

Jimmy Solution

Jimmy Token aims to solve these issues by enabling a decentralized, transparent, and community-driven gaming ecosystem where gamers can earn rewards, own in-game assets, and contribute to the development of games they love.

DeFi

Decentralized Finance (DeFi) has brought significant innovations to the financial industry, but it still faces various challenges such as high gas fees, complexity, and lack of accessibility for new users.

Jimmy Solution

Jimmy Token aims to address these issues by providing a user-friendly and low-cost DeFi platform that enables users to stake their tokens, participate in liquidity pools, and earn rewards while contributing to the network's security.

Meme Tokens

While meme tokens have gained significant attention and popularity in recent years, many of them have limited use cases beyond being traded on exchanges. The meme token market is highly volatile and often associated with pump-and-dump schemes, which pose a significant risk to investors.

Jimmy Solution

Jimmy Token aims to differentiate itself from the rest of the market by providing a genuine, community-driven, and long-term focused project that contributes to social causes and supports the growth of the Web3 ecosystem.

Charity

The problem in the Web3 charity sector is the lack of transparency and trust. Donors are often hesitant to donate to charity organizations because they are unsure if their donations are being used effectively.

Jimmy Solution

The project will use blockchain technology to provide transparency and traceability of donations. This way, donors can be sure that their donations are being used effectively and for the intended purposes.

Crypto Community

The problem in the crypto community sector is the lack of engagement and education. Many crypto enthusiasts are not aware of the latest projects or opportunities in the market. Additionally, many people are hesitant to invest in new projects due to the lack of trust and transparency.

Jimmy Solution

Jimmy project aims to solve this problem by offering a community forum, where crypto enthusiasts can meet, learn, and discover new projects. Users can earn JIM tokens by completing simple tasks on the forum, and new projects can advertise and distribute airdrops and giveaways to promote their projects.

Current **Status.**

Due to their viral nature and community-driven approach, meme coins and tokens have become more and more popular in the cryptocurrency market. To ensure the viability and endurance of meme currencies and tokens on the market, some challenges and issues related to them must be resolved.

More than a Meme Token- It's a Movement!.

The Jimmy project aims to solve the problems of a lack of community, limited use cases, and price instability in the cryptocurrency market. Through its gaming and social platform, robust tokenomics system, and incentivization mechanisms, the project seeks to create a strong and dedicated community of users who will help drive the widespread adoption of JIM tokens.

Meme Token Market

Meme tokens are a relatively new phenomenon in the cryptocurrency market. They are tokens that are created for fun or as a joke, often based on popular memes or internet trends. While some may view them as frivolous, they have gained significant traction in recent years. According to CoinMarketCap, the market capitalization of meme tokens was over $3 billion as of March 2023. Meme tokens have also gained attention from retail investors who see them as a way to potentially make quick profits. However, they are known for their volatility and lack of fundamentals, making them a high-risk investment. Despite this, meme tokens have carved out a niche in the cryptocurrency market and continue to draw interest from both investors and creators alike..

Total Meme Token Marketcap

$19,689,523,592

Meme Tokens.

Meme coins and tokens' lack of inherent value is one of their main drawbacks. The majority of meme tokens and currencies lack any real-world utility or use cases, and their valuations are solely determined by hype and market emotion. As a result, they are extremely volatile and prone to large price swings, which can result in big losses for traders and investors.

Note

It's important to note that the cryptocurrency market is highly volatile and constantly changing, However, the popularity of meme tokens has grown significantly in recent years, with the rise of projects like Dogecoin, and their market capitalization has increased accordingly.

The **Approach.**

Jimmy Project's approach to the problems in the cryptocurrency industry is to leverage the power of meme tokens and create a strong community incentivized by JIM Token, while offering a comprehensive ecosystem that includes a game world, a metaverse, and a DeFi platform to provide users with various ways to earn, trade, and use JIM tokens.

Gaming.

Jimmy Project Rooster Gaming is an NFT-based web3 game that allows users to own and breed virtual roosters, train them, and participate in battles with other users' roosters. The game features four generations of roosters, each with a limited number of NFTs available for breeding, adding a sense of rarity and exclusivity. The game also includes various elements such as raiding, feeding, and breeding centers that add depth and complexity to the gameplay. The game aims to be a unique and immersive experience in the growing world of web3 gaming, with potential for high demand and value in the NFT marketplace.

DeFi.

Jimmy's DeFi platform will include a swap platform, staking platform, and farming platform. Users will be able to swap JIM tokens with other tokens and coins and use JIM tokens as liquidity. They will also be able to stake JIM tokens and earn rewards.

Attractive & sustainable game mechanics with beautiful graphics.

Community.

Jimmy token will offer a social media platform called Bytedex community forum that will serve as a one-stop-shop for all crypto-related discussions and networking. Users can earn JIM tokens by completing simple tasks and participate in giveaways and airdrops. Moreover, advertisers can use JIM tokens to promote their projects on the platform.

Metaverse.

The Jimmy metaverse will be a special world exclusively for Jimmy rooster NFT owners, where they can socialize and participate in small games together.

Business **Model.**

The following section outlines the business model for the Jimmy Project, including various revenue streams, growth strategies, and potential partnerships to sustain and expand the project.

Revenue Streams.

The Jimmy Project has multiple revenue streams including NFT sales, gaming fees, DeFi charity contributions, advertising, metaverse assets, social media partnerships, and token sales, ensuring a diverse and sustainable revenue model for the long-term growth and success of the project

15%

JIM Token Sales

The Jimmy Project can generate revenue from JIM token sales by allocating a portion of the total token supply for sale. Investors can purchase these tokens through various channels such as initial coin offerings (ICOs), exchanges, and direct sales. As the demand for JIM tokens increases, their value is likely to appreciate, allowing the project to generate revenue from the sale of these tokens.

35%

Rooster & In Game NFT Sales

The Jimmy Project will create and sell exclusive limited-edition Rooster NFTs and in-game NFT assets. The Jimmy Project will generate revenue from NFT sales by taking a percentage of the transaction fees when players buy, sell, and trade Roosters NFTs in the game world as well. These fees will be a small percentage of the total transaction value and will be automatically deducted from the buyer's payment.

20%

Game Fees and Commissions

The Jimmy Project will generate revenue from game fees and commissions through various in-game transactions, such as breeding roosters, equipping them with items and abilities, and participating in battles. Each of these actions will require a certain fee, which will be collected by the project as revenue. The project will also earn commissions from various transactions that take place within the game, such as marketplace transactions for in-game assets and items

Parameter

In conclusion, the Jimmy Project has designed a robust and diversified revenue model that leverages the multiple features and products offered by the project. By integrating various revenue streams such as token sales, NFT sales, game fees, commissions, DeFi system, metaverse sales, and charity donations, we aim to create a sustainable ecosystem that benefits all stakeholders, including our users, investors, and the community at large. We believe that this revenue model, combined with our innovative approach to blockchain-based gaming and social impact, will enable the Jimmy Project to become a leading player in the crypto gaming space while creating meaningful value for our users and the world.

15%

DeFi

Jimmy project can generate revenue from its DeFi system through transaction fees and commissions charged on the various DeFi activities taking place on the platform. These include token swaps, liquidity provision, yield farming, and lending and borrowing activities.

200k

Customer

Growth

The Jimmy Project aims to have 200,000 users of its products and services by the end of 2025.

10%

Metaverse Sales

The Jimmy Project plans to generate revenue through the sale of virtual real estate, digital assets, and other Metaverse-related products. Players will be able to purchase these items using JIM tokens, providing a new revenue stream for the project. Additionally, the project can create exclusive virtual assets, such as limited-edition items, and auction them off to collectors, generating additional revenue.

5%

Others

The Jimmy project will generate revenue through advertising and sponsorships on various spaces on the platform. Rooster characters IP sales, promotions, events will also contribute this revenue stream.

JIM Token Utilities

- *Governance rights*
- *Transaction fees*
- *Access to exclusive features and benefits within the Jimmy Project ecosystem*
- *Staking rewards*
- *Voting rights for charity donations*
- *In-game currency for the Jimmy Project game*
- *Payment for NFTs and other digital assets within the ecosystem*
- *Liquidity provision for the decentralized exchange on the Jimmy Project platform*
- *Rewards for participation in the referral program*
- *Rewards for holding JIM Token through the redistribution mechanism*

These proposed utilities provide a wide range of benefits to JIM Token holders, including the ability to participate in governance, earn staking rewards, access exclusive features and benefits, and participate in the charity donations and referral programs. Additionally, the proposed use cases for JIM Token within the Jimmy Project ecosystem, such as in-game currency and payment for NFTs, provide tangible benefits for users of the ecosystem.

Growth **Model.**

The Jimmy project aims to create a thriving ecosystem of gaming, DeFi, and metaverse that is powered by the JIM token. The project's revenue streams are diversified, with a focus on sustainable growth and user acquisition. The token utilities are designed to incentivize usage and create value for the community.

Strategy.

The project plans to reach 200,000 audience that uses Jimmy Project related services and products by the end of 2025. The growth strategy will be implemented by focusing on user acquisition through targeted marketing, partnerships with other projects in the gaming and DeFi industries, and continued development of the project's features and functionalities.

Objective	Growth Strategy	Actions
Increase User Adoption	Social Media Marketing	1. Develop a comprehensive social media strategy targeting key demographics. 2. Run paid advertisements on social media platforms. 3. Partner with influencers and content creators to promote the project.
Increase Community Engagement	Community Building	1. Host regular community events, including AMAs and contests. 2. Launch a dedicated community forum. 3. Build a referral program to incentivize users to bring new users to the platform.
Expand Marketing Reach	Content Marketing	1. Develop a content marketing strategy targeting key demographics. 2. Create blog posts, videos, and other forms of content to engage with the community. 3. Build partnerships with media outlets to increase visibility.
Expand into New Markets	Partnerships & Expansion	1. Build strategic partnerships with other companies in the blockchain and gaming industries. 2. Explore expansion into new markets, such as Asia or South America. 3. Build localized versions of the platform to appeal to different regions.
Improve Product Offering	Product Development	1. Conduct regular user research to identify pain points and areas for improvement. 2. Build out new features and functionalities, such as NFT trading and staking. 3. Implement user feedback and continually optimize the user experience.

Competitors.

In this section, we will conduct a thorough analysis of the competitive landscape for the Jimmy Project, including a comparison with other similar projects and meme tokens in the market.

	Jimmy	DogeCoin	Shiba Inu	Floki
Meme Value	✓	✓	✓	✓
Metaverse	✓		✓	✓
DeFi Platform	✓		✓	
Redistribution	✓			
Gaming	✓		✓	✓
Social Media	✓			

- In terms of features, Jimmy Project may stand out from its competitors by offering a unique combination of DeFi charity, metaverse, social media, and gaming features.
- In terms of user base, Jimmy Project may face competition from established social media and gaming platforms with millions of users. However, by targeting a niche market of users interested in cryptocurrency, blockchain, and charitable giving, Jimmy Project may be able to attract a loyal and engaged user base.
- In terms of revenue streams, Jimmy Project's revenue streams may be more diversified than its competitors, as it offers multiple ways for users to spend money within the platform, including JIM token sales, NFT sales, game fees and commissions, and metaverse sales.
- In terms of market share and growth potential, Jimmy Project may face challenges in competing with established players in the social media and gaming industries. However, by offering a unique combination of features, Jimmy Project may be able to differentiate itself and carve out a niche market for itself.

Overall, the success of Jimmy Project will depend on a combination of factors, including its ability to attract and retain users, its ability to generate revenue from multiple streams, and its ability to differentiate itself from its competitors.

JIM **TOKEN.**

Introducing the JIM Token, the native cryptocurrency of the Jimmy Project. In this section, we will take a deep dive into the JIM Token's utilities and tokenomics to provide a comprehensive understanding of its value proposition within the Jimmy Project ecosystem.

Jim Token is a utility token of the Jimmy Project that will serve various purposes within the ecosystem.

One of the primary utilities of Jim Token will be to access premium features within the Jimmy gaming platform, including exclusive in-game assets and bonuses. Additionally, Jim Token will serve as the main currency for transactions within the platform, including NFT and game asset purchases. Holders of Jim Token will also be able to participate in community governance and decision-making processes, providing a sense of ownership and control within the ecosystem. The token will also be used to incentivize and reward active community members and contributors through various initiatives and programs. Overall, Jim Token will play a vital role in creating a sustainable and thriving ecosystem for the Jimmy Project, providing value to its users and contributing to the growth and success of the project.

## JIM TOKENS

1,000,000,000,000,000

10%TAX

Redistibution of JIM Tokens

Redistribution is a fundamental aspect of JIM Token's tax system, and it plays a crucial role in the success of the Jimmy project. By implementing a redistribution mechanism, JIM Token ensures that everyone in the ecosystem benefits from its growth and success. When a transaction occurs, a 10% tax is applied, which is then distributed to the community in the form of a burn, reward for JIM holders, BEXT stakers, and marketing. The burn mechanism helps to reduce the supply of JIM Tokens, increasing their value over time. The rewards for JIM holders and BEXT stakers incentivize users to hold onto their tokens, creating a loyal and committed community. Finally, the marketing allocation ensures that the project can reach a wider audience, driving further adoption and growth. The redistribution system is a win-win for everyone involved in the Jimmy project ecosystem, as it encourages long-term holding, community engagement, and overall growth.
TAX Distribution

	3% BURN
	3% JIM HOLDERS
	2% BEXT STAKERS
	2% MARKETING

JIM **Tokenomics.**

In this section, we will provide an overview of the JIM Token tokenomics and explain the various factors that contribute to its value and utility within the Jimmy Project ecosystem. For detailed Excel file: bit.ly/Jtoken
- 10% Private B
- 2.5% Legal & Advisors
- 10% Team
- 2.5% Airdrop
- 10% Public Sale
- 10% Private A
- 15% Private C
- 5% Seed sale
- 15% Liquidity
- 10% Reserve
- 10% Ecosystem

50%
Public Distribution

Increasing the public token sale rate can improve the decentralization of the Jimmy project by distributing a larger portion of JIM tokens to a broader audience, rather than just a select group of investors. This wider distribution of tokens can lead to more decentralized decision-making and reduce the risk of centralization. Additionally, it can create a more engaged and diverse community of token holders who have a stake in the success of the project.

Token Distribution

Monthly Inflation

Sell pressure ($)/Month

Cummulative Vesting Diagram

	Cliff	Vesting	Ratio	Token Amount
Seed Sale	6 Months	18 Months	%5	50,000,000,000,000
Private A	4 Months	12 Months	%10	100,000,000,000,000
Private B	3 Months	9 Months	%10	100,000,000,000,000
Private C	3 Months	6 Months	%15	150,000,000,000,000
Public	No Cliff	6 Months	%10	100,000,000,000,000
Team	3 Months	24 Months	%10	100,000,000,000,000

Cliffs and vestings are important in the Jimmy Project to ensure long-term commitment and alignment of incentives between the team and the token holders. They also provide a level of protection against sudden market volatility and prevent large amounts of tokens from flooding the market at once. By implementing these measures, the Jimmy Project can maintain a healthy token economy and establish trust and credibility with its community.

Our **Roadmap.**

The Jimmy Project's roadmap outlines the project's strategic plans and milestones for achieving its long-term vision.

Spread the word, April 12 2023

$JIM TOKEN AIRDROP

Jim Token Airdrop is a promotional campaign where users can earn free $JIM tokens by performing some easy activities. These activities include following Bytedex and JIMMY social media accounts, creating unique social media posts for JIMMY, producing articles or content, and more. With the referral program, users can also earn extra JIMMY tokens by referring others.

In addition, those who stake at least 5000 BEXT tokens or hold BEXT tokens in their Byte Exchange wallets will benefit from the JIMMY Airdrop in proportion to the amount of tokens they hold.

The total share allocated for the airdrop is 5% of the total supply, and a 6-month lockup and 12-month vesting will be applied for Airdrop and Seed sale purchases. During the vesting period, tokens will be credited to Byte Exchange wallets at a monthly rate of 1/12 of the total tokens. The Airdrop campaign will start simultaneously with the Pre-Sale programs and will last for 3 months, ending on July 12, 2023. However, if the allocated amount for the Airdrop is exhausted before this date, the Airdrop campaign will be considered complete at the time the funds are exhausted. The campaign is organized on a first-come, first-served basis.

Roostering, Q4 2023

Opening of Bytedex Community Forum, introduction of JIMMY Gameworld and JIMMY NFTs.

The Bytedex community forum is designed as a crypto social media platform where users can earn $JIM tokens by completing certain activities and where airdrops of other crypto projects will also be distributed. The forum is open to all crypto users and projects. With $JIM token, users will be able to prioritize and promote their announcement posts on the platform. This creates one of the important use cases for JIM token.

JIMMY Gameworld is a game where users who own JIMMY roosters can participate in various tournaments, competitions, and one-on-one fights with their roosters and win achievements based on their rooster's abilities, skills, and the user's knowledge. Here, users can acquire improvements for their roosters using JIM and level them up. They can also earn JIM rewards from successful battles. In addition, in one-on-one fights, users can loot their opponent's JIM stock.

JIMMY NFTs: JIMMY NFTs are GEN1 JIMMY Roosters that will hatch from 1000 JIMMY NFT eggs after a certain period of time. GEN1 NFTs can be used nine times as the starter for new rooster productions in the JIMMY species. New rooster types can be produced using the genetics of two GEN1 JIMMY roosters in the GEN2 species. GEN2 roosters can be used five times for new rooster production. GEN3 roosters can be produced using the genetics of GEN1 and GEN2 roosters. GEN3 roosters can be used three times for new rooster production. And GEN4 roosters can be produced using the genetics of GEN2 and GEN3 roosters. GEN4 roosters can only be used once to produce new roosters using the genetics of GEN3 roosters. Roosters can take their place in JIMMY Gameworld as adult JIMMY roosters after a certain period of time.

JIMMY PRESALE PROGRAM

$JIM Token will be offered for sale in three different stages.

Seed Sale: This sale is limited to 5% of the total JIMMY Token supply and is subject to a 6-month lock-up period and a 18-month vesting period. The vesting period is the process of distributing tokens on a monthly basis, with participants receiving 1/18 of the tokens each month. Airdrop participants, BEXT token holders, and accredited capital firms will be able to participate in the Seed Sale.

$JIM Token Seed Sale Price: $0.000000005 USDT
Cliff: 6 months
Vesting: 18 months (monthly distribution of 1/18)
Platform: Bytepad
Start Date: 12/04/2022
Duration: 15 days

Private Sales: This sale is limited to A(%10),B(%10),C(%15) series of the Private sale. Each sale has different sale conditions and participation rules. Participation rules will be announced on Bytedex social media and website.

Private A Price: 0.000000009 USDT
Cliff: 4 months
Vesting: 12 months (monthly distribution 1/12)
Platform: Bytepad & Partner Platforms
Date: 07/05/2023
Duration: 15 days

Private B Price: 0.000000012 USDT
Cliff: 3 months
Vesting: 9 months (monthly distribution 1/9)
Platform: Bytepad & Partner Platforms
Date: 31/05/2023
Duration: 15 days

Private C Price: 0.0000000014 USDT
Cliff: 3 months
Vesting: 6 months (monthly distribution 1/6)
Platform: Bytepad & Partner Platforms
Date: 21/05/2023
Duration: 15 days

Public sale: This sale is open to the public and will be launched on various presale platforms simultaneously. Upon completion of this sale, JIM Token will be listed on Byte Exchange and announced exchanges for trading. 10% of the total supply will be available for sale in this stage.

Public Price: 0.0000000015 USDT
Cliff: No Cliff
Vesting: 3 months (monthly distribution 1/3)
Platform: Bytepad & Partner Platforms
Date: 16/06/2023
Duration: 30 days

Rise of Roosters, Q2 2024

Launch of JIMMY Metaverseworld in collaboration with ERA Multiverse

JIMMY World is a metaverse club created on the Era Multiverse platform in collaboration with ERA Multiverse. Various entertainment activities and games can be created here, in line with the metaverse atmosphere. JIMMY NFT holders can initiate commercial activities in the metaverse area using JIMMY IPs with JIM tokens. The JIMMY World area on ERA Multiverse will be purchased by Bytedex and allocated to JIMMY roosters. NFT holders will be able to create their own worlds using ERA functions for the metaverse area without paying any fees. JIMMY GEN1, GEN2, GEN3, and GEN4 NFTs can be bought and sold with JIM tokens, Bext, or Era Coin in the ERA NFT market.

Finance of the Roosters! Q2 2024

JIMMY DeFi is opening up to the world of decentralized finance with $JIM Token!

Access decentralized dex transactions with JIMMY Swap. Provide liquidity with JIM Token! Earn profits from liquidity commissions! Keep your JIM Tokens active with JIMMY Stake and Farming! Let your roosters work for you in the decentralized world while you sleep! Use your JIM Tokens as collateral with JIMMY Lending! Conduct your transactions easily across all networks via the Multichain feature on Bytechain. Access all your transactions easily with Byte Wallet!

Roosters' Dominion Q3 2024

JIMMY DAO

Jimmy DAO is a decentralized infrastructure that will provide self-governance dynamics for the Jimmy project. Through smart contracts on Bytechain, Jimmy Roosters will be able to make proposals, participate in voting, and have a say in decision-making. The active participation of Roosters in governance will allow Jimmy to always remain community-based and reinforce its decentralization.

Compassion of Roosters, Q4 2024

JIMMY Donation Platform makes Roosters the center of mutual aid!

Current crises, disasters, and challenges around the world make the world a harder place every day. JIMMY Roosters take responsibility here and with the decentralized donation platform, JIM Token can be used for help without any restrictions or security issues in a decentralized manner. Participation in aid campaigns that JIMMY Roosters will create through DAO can be provided using JIM Token, BEXT Token, and Stablecoins. With the power given by JIMMY blockchain, it will rush to help by eliminating the trust problem all over the world!

Leadership of Roosters Q1 2025

JIMMY will take its place among the most influential tokens in the world!

Our ultimate goal for JIMMY is to be among the top 100 tokens in the world and reach at least 200,000 holders. With its unique infrastructure and use of JIM Token, JIMMY brings a different dimension to the meme token concept and will take its place among the most effective crypto assets by reaching crypto enthusiasts around the world. It will be listed on the world's leading crypto platforms and take the lead with its unique community. The era of Roosters is beginning, take your place now!
